ALL POWERED BY DIGITALSELF'S ARTIFICIAL INTELLIGENCE TECHNOLOGY

IMMERSIVE TECHNOLOGY
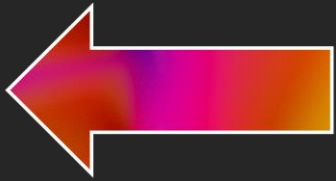

Augmented Reality

AR combines the virtual and physical worlds, allowing users to experience an enhanced reality that blends digital content seamlessly with their real-world environment.

AR has a wide range of applications across various fields, including:

- Entertainment & Gaming
- Education & Training
- Architecture & Design
- Retail & E-Commerce
- Healthcare
- Navigation & Wayfinding

IMMERSIVE TECHNOLOGY

Virtual Reality

By creating immersive and interactive experiences, VR has the potential to revolutionize how we learn, communicate, entertain, and experience the world around us.

VR has a wide range of applications across different industries including:

- Entertainment & Gaming
- Tourism & Virtual Travel
- Virtual Meetings & Collaboration
- Education & Virtual Field Trips
- Training & Simulations
- Healthcare & Therapy

IMMERSIVE TECHNOLOGY

Mixed Reality

Mixed Reality offers a wide range of possibilities, bridging the gap between the physical and virtual worlds. By blending virtual content seamlessly into the real world, it provides enhanced experiences and opens up new opportunities for collaboration, design, training, and entertainment.

Some applications of Mixed Reality include:

• Design & Prototyping

• Remote Collaboration

• Entertainment & Live Events

• Architecture & Construction

360 Video & Images

360-degree videos and photos provide a unique and captivating way to capture and present the world, offering viewers a more interactive and immersive visual experience. Applications include:

• Travel & Tourism

• Events & Live Streaming

• Journalism & Documentaries
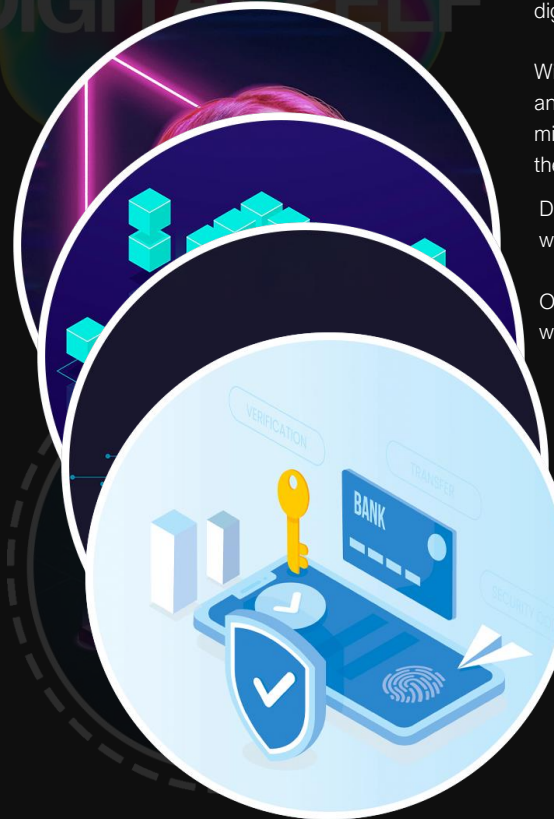

• Marketing & Advertising

Payment Gateway Multi-Blockchain & AI

WEB3 NFT Live Minting Crypto Exchange

WEB3

DigitalSelf offers a cutting-edge Live NFT Minting service, revolutionizing the world of digital art ownership and creation.

With our platform, artists can showcase their creativity in real-time, providing a unique and interactive experience for collectors. Through our intuitive interface, artists can mint their artwork into NFTs instantly during live events, allowing audiences to witness the birth of each NFT as it happens.

DigitalSelf introduces a state-of-the-art payment gateway service, providing businesses with a seamless and secure platform to process online transactions.

Our payment gateway supports multiple payment methods, including credit cards, digital wallets, and alternative payment options, offering convenience and flexibility to customers.
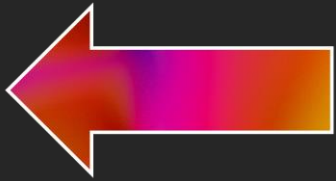

DigitalSelf offers a state-of-the-art cryptocurrency exchange platform, providing users with a secure, reliable, and user-friendly environment to trade digital assets. Our exchange supports a wide range of cryptocurrencies, allowing users to easily buy, sell, and trade their preferred digital currencies with ease.

With a robust and scalable infrastructure, we ensure high liquidity, fast order execution, and competitive trading fees.

DigitalSelf offers comprehensive blockchain services that encompass multichain support and AI-powered solutions.

With our multichain support, we enable seamless integration and interaction across multiple blockchain networks, allowing businesses to leverage the strengths of various blockchain platforms.

Additionally, our AI-powered blockchain solutions provide advanced analytics, intelligent automation, and enhanced security measures.

DSF UTILITIES

Medium of Exchange

As an ERC20 token, DSF Token can be used as a digital currency on the DigitalSelf platform. Users can exchange DSF for goods, services, or other assets within the platform. Since it's a utility token, investors can also benefit from the future increase in DSF value as the economic activity within the DigitalSelf ecosystem expanded.

Staking

DigitalSelf is planning to launch its own PoS blockchain network in the future. To ensure the security & stability of the network, token staking will be introduced; in return, users will earn additional income for staking their DSF Tokens.

Current owners of DSF Tokens on polygon will be migrated to this new blockchain token when it's ready.
